PROJECTS

Real-Time Cryptocurrency Screener App | [View] [GitHub]   **(April 2025 – Present)**
React.js, Tailwind CSS, Context API, React Router, Rechart, Crypto API.

- Built a **crypto screener app** with React and Tailwind CSS to browse and track real-time cryptocurrency data.
- Integrated **CoinGecko API** to display live prices, market stats, and coin details in a responsive UI.
- Implemented **pagination, live search, and sorting** for efficient multi-device data browsing.
- Designed interactive **charts** with Recharts to visualize coin trends and historical performance.
- Built a **favorites system** with React Context API to save and manage preferred cryptocurrencies
- Implemented **dynamic routing** with React Router for detailed coin pages and smooth navigation

E-commerce Website | [View] [GitHub]   **(Jan 2025 – Feb 2025)**
React.js, Tailwind CSS.

- Built a responsive, user-friendly eCommerce UI with **product browsing, filtering, sorting, and cart management** using React.js.
- Designed a clean, intuitive **checkout interface** with visual support for multiple payment options.
- Developed reusable **React components** for product cards, filters, modals, and cart functionality.
- Applied **Tailwind CSS** for consistent styling and modern, mobile-friendly layout.

Real Estate Listing Website | [View] [GitHub]   **(Oct 2024 – Nov 2024)**
React.js, Tailwind CSS, Email API

- Built a fully responsive real estate website using React.js and Tailwind CSS, featuring **smooth page transitions and scroll animations**.
- Implemented a **contact form** that sends inquiries directly to the admin via **Web3Forms API integration**.
- Designed dynamic UI components for **property listings, agent profiles, and service highlights** to enhance user engagement.
