TECHNICAL SKILLS

Languages: Java, SQL.
Backend: Spring Boot, Spring Security, REST APIs, JPA/Hibernate.
Frontend: React.js, Tailwind CSS, HTML5, CSS3, Bootstrap.
Database: PostgreSQL.
Tools: Git, GitHub, Postman, Maven.

PROJECTS

Full-Stack E-Commerce Clothing Platform | [Live Demo](#) | [GitHub](#)
React.js, Spring Boot, Java, PostgreSQL, JPA/Hibernate, Cloudinary, Axios May 2026 – July 2026

- Developed a full-stack e-commerce clothing platform with separate customer and admin interfaces using **React.js** and **Spring Boot**.
- Built **RESTful APIs** for product creation, retrieval, updating, and deletion using **Spring Boot, JPA, and Hibernate**.
- Implemented **JWT-based authentication** using **Spring Security** to secure user login and protect API endpoints.
- Implemented product attributes including **categories, product types, sizes, prices, and bestseller status** using Java enums and JPA mappings.
- Integrated **Cloudinary** for product image storage and implemented multipart file uploads supporting multiple images per product.

Real-Time Cryptocurrency Screener App | [Live Demo](#) | [GitHub](#)
React.js, Tailwind CSS, Context API, React Router, Recharts, REST API. March 2025 – April 2025

- Built a responsive crypto screener with real-time data using the **CoinGecko API**.
- Implemented **search, sort, filter, and currency conversion** for a rich user experience.
- Used **Context API** for state management and **React Router** for seamless navigation.
- Visualized market data with **Recharts** and styled the UI using **Tailwind CSS**.

EXPERIENCE

Frontend Developer Sept 2025 – Feb 2026
Nerdtech LLC *Nashik, Maharashtra*

- Developed a **CMS-driven web platform** using **React.js** with a scalable **modular component architecture**.
- Implemented key modules including **Admin Panel, Authentication, and Contact Forms** for secure content management.
- Managed global state using **Context API** and implemented **client-side routing** with **React Router**.
- Translated **Figma designs** into **responsive UI**, ensuring cross-device compatibility and design consistency.

Junior React.js Developer Intern June 2025 – Aug 2025
Anstric Games Pvt. Ltd. *Nashik, Maharashtra*

- Developed a **web application** using **React.js** and **Tailwind CSS** with reusable component architecture.
- Implemented core features including **Product Listing, Shopping Cart, and Checkout**, using **Context API** for state management.
- Integrated **REST APIs** to fetch and display dynamic product data, enabling seamless communication.
- Optimized performance using **lazy loading, memoization**, and efficient component rendering.

EDUCATION

Sandip University Nashik
Master of Computer Application (MCA) Jul. 2022 – June 2024
H.P.T Arts & R.Y.K Science College Nashik
Bachelor of Computer Science June 2019 – May 2022
